DATA CENTER CAMPUS

Accelerate IT Modernization and Gain Competitive Advantage with Global Connection

ACCESS ALL MAJOR PUBLIC CLOUD PROVIDERS THROUGH THE OPEN CLOUD EXCHANGE®

Global digitization is soaring. The demand for data centers in the second-largest metropolitan area in the U.S. is exploding. The CoreSite Los Angeles data center campus, a premiere option in connectivity and hyper-scalability, meets that demand. Our One Wilshire (LA1), LA2 and LA3 facilities are home to one of the largest digital ecosystems in the world. A vast array of domestic and international carriers, enterprises, CSPs, media and entertainment firms, social networking sites and gaming companies are tenants in our Los Angeles campus.

Multiple subsea cables to Asia-Pacific at One Wilshire open a gateway to the global marketplace. Designed for high-density, high-scalability requirements and tethered via high-count dark fiber to One Wilshire, CoreSite's LA2 data center offers a secure, flexible environment for holistic hybrid IT solutions. LA3 is the first ground-up development in downtown Los Angeles, purpose-built to support next-generation edge services and workloads.

HYBRID IT DEPLOYED IN COLOCATION DATA CENTERS ENABLES BUSINESSES TO

MEET COMPLIANCE REQUIREMENTS

REDUCE TOTAL COST OF OWNERSHIP

ENSURE SECURITY AND BUSINESS CONTINUITY

MONETIZE BUSINESS

GAIN COMPETITIVE EDGE

INTEROPERATE TO QUICKLY SCALE

CORESITE VALUE BY VERTICAL

ENTERPRISE

Future-proof your digital business

- Great versatility in regard to size, density and compliance certifications
- Inter-market data center connectivity and global gateway expands market reach
- 24/7 security, field operations, remote hands and service delivery platform to support all customers

WHY BUSINESSES CHOOSE CORESITE LA

The starting point for enterprise digital strategy

- Proximity to major population centers
- Instant transfer between vendor partners
- Access to native cloud onramps
- Streamline vendors through complete ecosystem
- Focus on growing revenue and innovation, rather than on IT infrastructure

MEDIA AND ENTERTAINMENT

Accelerate workflow and increase asset monetization

- Direct connectivity to 350+ networks ensures lowest possible latency, optimized user experience and cost control
- High scalability enables on-demand increase/decrease of bandwidth, storage and compute capacity
- Secure, rapid transfer of extremely heavy files to stakeholders and clouds

“The entertainment industry works with extremely large data sets. CoreSite provides the secure, reliable and highly scalable backbone that allows our tools to help them collaborate in real time and meet their intense deadlines.”

PATRICK SUMBY, VICE PRESIDENT, GLOBAL ENGINEERING, SOHONET
